EDUCATION

- **Oriental College of Technology** — Bhopal, India
  Bachelor of Technology - Computer Science Engineering; GPA: 8.64 — *July 2020 - June 2024*
  Courses: Operating Systems, Data Structures,Databases

SKILLS SUMMARY

- **Languages**:   JavaScript, JAVA
- **Frameworks**:   NodeJS, ExpressJS , REST API
- **Tools**:   GIT, PostgreSQL, MongoDB
- **Soft Skills**:   Leadership, Event Management, Public Speaking, Time Management

EXPERIENCE

- **Coding Ninjas** — Remote
  Teaching Assistant(Part-time) — *Dec 2022 - Mar 2023*
  - Leveraged expertise to mentor over 100 students, providing invaluable guidance and support in tackling diverse coding problems. Through personalized assistance, I empowered students to overcome challenges, enhance their problem-solving skills, and excel in their coding endeavors.
  - Demonstrated proficiency by successfully solving over 115 coding questions spanning various topics for numerous students. By addressing their queries and providing comprehensive solutions, I facilitated a deeper understanding of core concepts and facilitated their growth as competent coders.

- **Sync Intern** — Remote
  Frontend Developer(Part-time) — *Jan 2022 - Jun 2022*
  - **Project Course - Real-time messaging website** Developed with precision, it features: Registration and Login pages for seamless onboarding. A user-friendly Home Page for easy navigation. A dynamic Chat Environment for instant communication.

PROJECTS

- **Booking Services**: (Work in progress) Code

  - Tailored Booking Experience: Users access a comprehensive platform allowing seamless handling of travel arrangements through personalized profiles, ensuring a tailored experience meeting individual needs.
  - Effortless Centralized Booking: With a user-friendly interface, users navigate through available options for flights and accommodations, effortlessly reserving desired services, thereby simplifying travel planning and ensuring a hassle-free experience.
  - Tech: JavaScript, NodeJS, Rest APIs, MongoDB, ExpressJS

- **IPL Backend**: Code

  - Efficient Data Management: A robust database system categorizes teams and players for easy access, providing comprehensive information including team affiliation and bidding prices.
  - User-Friendly Interface with Administrative Control: Users can effortlessly retrieve data on teams and players, while administrators maintain the database's accuracy by seamlessly updating player details.
  - Tech: JavaScript, NodeJs, Rest APIs, PostgreSQL, ExpressJs

- **User Authentication**: Code

  - Personalized Profiles Creation: Users can create personalized profiles within the project, tailoring their experience to their preferences and needs.
  - Seamless OTP Authentication: The project offers seamless authentication via OTP (One-Time Password) features, ensuring enhanced security and easy access for users, thereby providing a reliable authentication method.
  - Tech: JavaScript, NodeJs, Rest APIs, PostgreSQL, ExpressJs

CERTIFICATES

- Certificate of Excellence in Java by Coding Ninjas.
- Certificate of Completion Data Structure and Algorithms by Coding Ninjas.
- Problem Solving(Basic) by Hacker Rank.
- Java(Basic) Certificate by Hacker Rank.

VOLUNTEER EXPERIENCE

- **Promotion Head of Octafest** — Bhopal, India
  Conducted all the promotions of the coding Event Octafest. — *Oct 2020*
